

## JOB DESCRIPTION

# Full Stack Developer

We are seeking a highly skilled and motivated Full Stack Developer with 2-4 years of experience in React and Node.js to join our internal development team. The ideal candidate will have a strong background in building scalable web applications, integrating payment gateway, working across the full stack, and collaborating with cross-functional teams to deliver high-quality software solutions.

## Key Responsibilities:

### → **Front-End Development (React):**

- Develop and maintain user-facing features using React.js.
- Collaborate with UI/UX designers to translate designs into functional web applications.
- Optimize components for maximum performance across a wide range of devices and browsers.
- Ensure responsiveness and cross-platform compatibility of web applications.

### → **Back-End Development (Node.js):**

- Design, develop, and maintain server-side logic using Node.js.
- Create and manage RESTful APIs and integrate with various databases and external services.
- Ensure data consistency and security across applications.
- Implement server-side rendering where necessary.

### → **Database Management:**

- Design and maintain database schemas.
- Optimize database queries for performance.
- Ensure data integrity and implement security measures for sensitive data.

### → **DevOps & CI/CD:**

- Work with cloud services like AWS/Azure for application deployment and scaling.
- Set up and manage CI/CD pipelines to automate testing and deployment.
- Monitor application performance and implement improvements.

→ **Business Intelligence and Data Warehousing:**

- Integrate Business Intelligence tools into applications, ensuring seamless data visualization and reporting.
- Develop and maintain data pipelines and data warehouses to support BI initiatives.
- Analyze and optimize data models for efficient querying and reporting.
- Create visual dashboards and reports on a Business Intelligence tool.

→ **Collaboration & Communication:**

- Work closely with the internal team to implement new features.
- Provide technical support and troubleshooting assistance to clients.

## **Required Skills & Qualifications**

● **Technical Expertise:**

- Strong proficiency in JavaScript and modern frameworks like React.js and Node.js.
- Experience with HTML5, CSS3, and related web technologies.
- Knowledge of RESTful API design and implementation.
- Proficiency in working with databases (e.g., MongoDB, MySQL, PostgreSQL).
- Proficiency with version control systems (e.g., Git).
- Familiarity with Business Intelligence tools

● **Experience:**

- 2-4 years of hands-on experience in full-stack web development using React and Node.js.
- Experience with cloud platforms (AWS, Azure) and CI/CD pipeline setups.
- Understanding of responsive design principles and cross-browser compatibility.

● **Soft Skills:**

- Strong problem-solving skills and attention to detail.
- Excellent communication and collaboration abilities.
- Ability to work independently.
- A proactive approach to learning new technologies and improving existing skills.

## Nice to Have

- Experience with other JavaScript frameworks/libraries like Angular or Vue.js.
- Experience with Agile/Scrum methodologies.
- Familiarity with Business Intelligence tools

## Educational Background

Bachelor's degree in Computer Science, Information Technology, or a related field.

## Location:

Mumbai, Maharashtra
